

## DECORATIVE METAL WORKER

Please only apply only if you are 100% confident in your abilities to measure, fabricate and install to the highest quality in the field of decorative metal working.

We are small company but have growing presence in the area due to our high standards of fabrication.

Our work shop is currently based in Salamander Bay, Port Stephens but is regularly working in the Newcastle and Hunter Valley areas so your own transport including during working hours is essential.

Also Essential are following skills and attributes:

Must have Balustrade experience. Stainless steel, glass and aluminium.

Must be able to read drawings.

Very neat Mig and Tig welding.

Stainless steel Polishing.

Must have good health and be neatly presented.

Must be driven and self-motivated and take pride in the work they produce.

Must be able to work unsupervised at times.

Current Driver's License

White Card

Applicants must supply a cover letter stating why they would like to work within our company as well as their CV. Also a portfolio showing previous works would be appreciated and would be an advantage to you during the filtering process.

Please email CV to email address below. Email only please
